

FORWARDING WORDS BY THE DEAN FTMM

Wassalamualaikum.

Praise be to Allah with HIS benevolence and beneficent has given us the ability to explore his knowledge in the field of IT for the well being of the whole mankind.

I would like to take this golden opportunity to welcome the graduates and our new students with a Congratulatory remark for being successful in stepping your first steps into our faculty specifically and UTHM generally.

Consistent to the aim of UTHM in producing high quality graduates through the implementation of pedagogical aspects and good learning facilities, this faculty offers courses in relevant and well demanded disciplines.

Our graduates and the new students will be given exposure and concentration in learning that focuses on knowledge skills in related fields through hands on and applicable to the current industries.

To do that, you should inculcate the utmost desire to equip yourself with the latest knowledge and ICT skills that are useful.

The opportunity given must be reaped as optimally as possible to learn the latest knowledge that span IT fields but also covering other challenging dimensions.

Last but not least, it is our strong desire by publishing a book such as PROFORMA ACADEMIC FTMM this could somehow help our graduates and our new students to plan their study with effectively and discipline in order to achieve par excellence. All the facilities that are provided by the university and the faculty must be utilized with great care and wisdom and responsibility. We sincerely hope that this booklet could give you some guidance in continuing your studies here.
