

PREFACE

Assalamualaikum wbr and Greetings.

Congratulations to all new undergraduate students of Faculty of Electrical and Electronic Engineering, UTHM for the 2010/2011 academic session. On behalf of the faculty members, I would like to welcome you to the faculty and are adapting well to the campus life.

The faculty, as one of the human capital generator plays very important role in transforming undergraduate students into engineers of high level of competency and ethics. The educational process in the faculty involves a depth and breath coverage of core materials related to electrical and electronic engineering. The students may able to choose programmes which specialize into areas such as Power System, Communication, Computer Engineering, Medical Electronics, Microelectronics and Mechatronic. The learning outcomes are further enhanced by the availability of excellent laboratories and conducive environment.

The faculty hopes that students should regard this as one time opportunity which they must not neglect. You have to understand your mission as an engineering student and work hard towards this end. Excellent achievement comes with full commitment. You have to nurture the good work culture very early on in the campus so as to fulfill your dream as well as the nation's.

'With Wisdom, We Explore'
