Dr Rozilah Kasim

Associate Professor

Faculty of Technology Management and Business

Universiti Tun Hussein Onn Malaysia

Dear Dr Kasim

### **Re: RICS Accreditation of programs**

As you know, we appointed a panel to visit the UTHM campus on 1 August 2019. Its purpose was to consider whether the proposed programs could be accredited by RICS. It took full account of the criteria set for accreditation and published by RICS.

The panel included Mr Nick Inatey and Mr Prem Kumar FRICS who had no previous or direct involvement with the establishment of the School. Both had a breadth of knowledge of the standards required for professional development at undergraduate and postgraduate levels, and using this knowledge, they considered the delivery of the programs.

The panel was grateful for the extensive information and presentations that it received during the visit. I am pleased to confirm that following the panel's deliberation, the Chairs of the Regional Education Standards Boards of RICS has approved the accreditation of the following program(s):

- **BSc of Real Estate Management**

The accreditation is approved for intakes and covers the student starter intakes for February 2019 up to but not including February 2024. For any period thereafter, the accreditation will be subject to review through the reaccreditation process.

The below are conditions that the university must meet in order for RICS to continue accrediting the programs. Should any of these conditions not be met RICS reserves the right to recommend to the appropriate governance board for accreditation of the program to be terminated as permitted in RICS policy and procedure for accredited courses.

### **Conditions:**

RICS presents this certificate to  
Universiti Tun Hussein Onn Malaysia

in recognition that

Bachelor Degree in Real Estate Management

has met the academic requirements  
and has been awarded  
**RICS accreditation** for the period

**2015-2017**

Certificate date
